#### **DETAILED ACTION**

Receipt is acknowledged of the papers filed 5/10/2006 in which claims 1-5 and 14 were cancelled. Claims 6-13 are pending and under examination in the instant Office Action.

#### ***Election/Restrictions***

Applicant's election of Group XIV without traverse in the papers filed 5/10/2006 is acknowledged. The restriction is still deemed proper as is therefore made FINAL.

#### ***Sequence Compliance***

This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 because Applicant has not provided a statement that the paper sequence listing and the computer readable format of the sequence listing are the same. Applicant is required to comply with all of the requirements of 37 CFR 1.821 - 1.825. Any response to this office action that fails to meet all of these requirements will be considered non-responsive. The nature of the noncompliance with the

Art Unit: 1636

requirements of 37 C.F.R. 1.821 through 1.825 did not preclude the examination of the application on the merits, the results of which are communicated below.

### ***Specification***

The disclosure is objected to because of the following informalities: the first line of the specification should be updated to reflect the status of US Patent Application No. 10/083,889, which has been issued as patent 6,673,894.

Appropriate correction is required.

### ***Claim Objections***

Claims 9 and 12 are objected to because of the following informalities: claims 9 and 12 recite non-elected subject matter: "a cell in a transgenic animal" (claim 9) and "SEQ ID NO: 25" (claim 12). Appropriate correction is required.

### ***Allowable Subject Matter***

Claims 6-8 and 10-11 are allowable.

Claim 13 is objected to as being dependent upon a base claim which comprises non-elected subject matter, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
